

COATING & LINING APPLICATIONS LIMITED

Mission Statement

CLA strives to become the premier providers of coating and lining systems giving total corrosion and erosion protection solutions to our clients' assets

This is achieved by:

Understanding our clients needs by discussion and inspection of installations at design, construction and as built stages.

Providing a service that is flexible, competitive and provides you with:

Qualified and professional advice

Unbiased selection of products that offer the most cost effective solution

Application expertise

Lining systems to suit most industry needs

Industry knowledge and material manufacturers support

Timely completion of contracts

Your complete satisfaction with our service

General Environmental Policy Statement

Coating & Lining Applications Limited (CLA) will plan, conduct and monitor its operations using the best practical means to protect the environment from impairment.

The concepts of best practical environment option and duty of care will be implemented to establish high standards of operation in all of the company's activities, for which adherence is mandatory. These will comply with or exceed regulatory controls or codes of practice where they are available. CLA will continue to develop and improve its operational standards as a result of its own efforts and using appropriate available technological developments.

Operational Policy

Assess in advance the environmental impact of any significant new development.

Communications Policy

Make all employees and sub-contractors aware of CLA's environmental policy, whilst providing suitable training to improve awareness and allocate clear responsibilities.

Make available to employees, sub-contractors, clients, the public and statutory authorities' relevant information about CLA's activities that affect health, safety and the environment.

Implementation Policy

Operate and update on a regular basis systems and procedures for both operations and their monitoring to ensure adherence to the policy.

Audit our adherence to the policy, undertaken by company management on a regular basis using a formalised reporting system.

Documentation

CLA will provide at contract stage:

- Fully detailed method statements covering all aspects of surface preparation and product application.
- COSHH safety data sheets for all products to be used on the contract
- Product data sheets
- Risk assessments

At quotation stage we can also provide you with a detailed system recommendation from our selected materials manufacturer which precisely details the level of surface preparation to be achieved, the materials application procedures and cure time for the system

CLA's site operatives are fully trained in the surface preparation and application techniques to be employed, as well as having nationally recognised training certification in, for example, confined space working.

CLA will provide on request a copy of our Health and Safety Policy for your reference together with details of our insurance cover, commercial details and our CIS certification.
